This '**AUSSIE MADE**' **HOT WASH HOSE REEL** is time proven to be TOUGH & ROBUST and very reliable. It is backed up with Global Tapware's 12mth warranty w- a Loan Reel Program.

Since 2011 we have overcome some harsh abuse by end users. But these improvements have now reached their Engineering limits. We have reduced Genuine Warranties to around a few percent p.a. This Reel represents great value for money and performance. We are now getting great longevity from them; however, we cannot stop abuse or lack of training from end users. This is why we have a 12mth warranty limit

The Hose itself does have some limits such as Extremely High Temperature, Fats, MSG, various Chemicals. We strongly switching to a full Rubber Hose which is more suited – POA.

Features & Inclusions:

- **Hose** – NEW HOSE, red in colour, is now supplied in Synthetic Rubber – 12.7 i.d. x 21mm o.d. has higher flow rate.
- **Reel Plastic Body** with Brass & Nylon inner workings.
- **One Piece PLASTIC (B1) - 180° Swivel Bracketing system** with lock pin. For low Mounting use. Metal Brackets for Above bench height use are available – see (B2 & B3).
- **Inlet Hose supplied – 1.5 x ½" F x ¾" F**
- **Unique** to this reel we have fitted at the end of the hose an Anti-**Kink Spring Guard**.
- **Unique** to this reel is a **Side Access** which gives easy access to the **Latch**. Running out hose fast may cause latch to jam.
- **12-month warranty** on **Reel & Hose** for genuine Faults. Abuse or not applying Guidelines will void warranty.
** (See Wall Sticker supplied)
